Nursery & Progression maps.

We have carefully considered how children learn in the EYFS and where the **most relevant links** lie between the Early Years framework and the primary curriculum. We have outlined these key skills in the following documents to support subject leaders: English, Maths, Science, PSHE & PE.

It was felt that some foundation subjects were not appropriate to be included in these documents as it is difficult to find a direct correlation between the broader learning which happens in Nursery as well as the style of teaching & learning which is more child led and centred around child development.
