Learning Enquiry Homework – please see over

Dinosaur Detectives – Autumn 1 Learning Enquiry Homework

As part of our current topic, we are learning about Mary Anning, one of the greatest fossil hunters that ever lived! She is most famous for her groundbreaking discoveries of prehistoric marine reptiles along the Jurassic Coast in Lyme Regis.

For our family learning enquiry homework, we have listed some suggested activities for you, but we love the creativity and imagination that many of our families have, so you can also surprise us with an idea of your own! Ideally, we would love to have all homework in by the 5 October, so that we can display all the fantastic outcomes for all to see. May we take this opportunity to thank you for your continued support. The KS1 Team

Fact File Create a fact file about Mary Anning. Present in any way that you like.	Dinosaur books Look in your home book collection or visit a library and find a dinosaur book to share with the class. You could even read it to the class if you like.	Sketch Sketch some of the fossils that Mary Anning might have found OR sketch your favourite dinosaur.
Interview Imagine you could interview Mary Anning. What would you ask her? What would she reply with?	Make a fossil Get creative and make your own fossils - https://www.bbc.co.uk/cbeebies/makes/presenters-making-a-fossil 	Design a medal Mary Anning received little recognition for her work when alive. Can you design a medal to commemorate her achievements?
Song Learn a song about dinosaurs and be prepared to share it with the class.	Make an ammonite https://www.nhm.ac.uk/discover/how-to-make-a-salt-dough-ammonite-fossil.html	Or why not come up with your own original idea to share with us!
